Sanitation and Disinfection Overview - Fall 2020
California State University San Marcos
v7 08/26/2020

Frequency

Each classroom will be disinfected after it has been used. Adequate transition time for custodial to disinfect is critical.

Cleaning/Disinfection of high touch areas before the space may be used again. This includes all doors and doorknobs, instruction-related objects (lights, switches, etc.), instructor desks and chairs, and objects (computer equipment, etc.) accessed by the occupant. The approximate time necessary to clean would be a minimum of 10 minutes between classes per classroom.

Request for 30 min buffer between classes due to assistance needed by Instructional Support Technician (IST).

Floors are dust mopped daily and wet mopped once per week.

- Disinfectant will be used at night on all shifts. This includes electrostatic fogging.
- Cleaning/Disinfection of high touch areas after the space has been used. This includes all instruction-related objects (lights, switches, etc.), instructor desks and chairs, and objects (computer equipment, etc.) accessed by the occupant. The approximate time necessary to clean would be a minimum of 10 minutes between classes per classroom.
