

## **BMP G02 - Employee Training**

CSUSM shall provide training for campus field staff as necessary depending upon the campus needs. Specifically staff responsible for facility design, selection, implementation, and/or maintenance of Treatment Control BMPs. This training will be integrated into existing training programs wherever possible. All required training shall be documented and reported in the stormwater annual report.

Training shall include the following topics (as applicable):

- Good Housekeeping
- Preventive Maintenance
- Spill Prevention and Response
- Material use and disposal Management Practices
- Temporary Construction BMPs
- Treatment Control BMP Selection and Design
- Treatment Control BMP Operation and Maintenance Requirements
