

## **Jury Instructions:**

### **Judge:**

Ladies and Gentlemen of the jury, I am going to read to you the law that you must follow in deciding this case.

To prove the crime charged, the prosecution must prove that the Defendant David took the stickers with the intent to keep them for himself.

If you think that it was proven beyond a reasonable doubt, then you should find David guilty. If you think it was not proven beyond a reasonable doubt, then you must find the defendant David, not guilty.

**Note: You must decide these things beyond a reasonable doubt, meaning you must be more than half sure that your decision is right. All twelve of you must agree.**
