

BACHELOR OF SCIENCE IN SPEECH-LANGUAGE PATHOLOGY

"I love the cohort format of the BS SLP program at CSUSM. You go through the program with the same set of students and get a chance to build a great rapport with a group of people who are as excited about the subject as you are."

- **AMBER ENGEN**, CURRENT STUDENT

PROGRAM OVERVIEW

The Bachelor of Science in Speech-Language Pathology (BS SLP) offered by College of Education, Health and Human Services in partnership with Extended Learning, provides broad education relative to speech language, communications and both cognitive and swallowing disorders across the lifespan.

Upon graduation, students may apply to graduate programs in Speech-Language Pathology but also may pursue further education and opportunities in a number of different fields and professions including general and special education, human development, social work, public health, communications and cognitive science.

BENEFITS

- This is a full-time program that prepares students to apply for the Master of Science in Speech-Language Pathology, Master of Social Work, Master of Public Health or a teaching credential.
- Seats and time to completion are guaranteed when courses are passed successfully.
- Earn your degree in just five semesters; including one summer term (after transfer requirements are fulfilled).
- Face-to-face cohort model facilitates a strong peer-to-peer support system and close interaction with professors.
- Financial aid available for those who qualify.
