GRADUATION EDITION

CONGRATULATIONS CLASS OF 2021!

On May 23rd 2021, a determined and dedicated group of students received their Baccalaureate degrees in Speech Language Pathology. The in-person ceremony took place at CSUSM's Mangrum Track and Field. Virtual ceremonies were also held for each cohort via Zoom. A synthesis of excitement, jubilee, gratitude, and triumph encompassed the commencement.

While 2020 will infamously go down in history as one of the most challenging years, these students persevered. CSUSM was proud to award their well-deserved diplomas in a celebration that rang of hope and optimism for the future of the SLP Community, and world at large. Congratulations Class of 2021! You did it!

A Message from the Department Chair

As we celebrate another academic year, I am marked by the resiliency that I have seen in our students, faculty, staff and clients. I know that none of us could have imagined in March 2020 that we would have remained in virtual modalities this long.

I have been marked by the many stories of hardship, isolation, and even loss that came with COVID-19. And at the same time, disappointment, worry and despair overcame so many of us as we watched hatred, bigotry and racism take center stage in our nation. I know that it was also difficult for many students, faculty, staff and clients as new technologies and home environments were not always conducive to optimal teaching and learning. Yet, we made it to the end of another academic year and to a commencement celebration that was diligently earned.

To say that I am proud of our tenacious students, my fellow faculty, our cherished staff, and our determined clients is an understatement. I wish you all a safe, healthy and happy summer.

- Dr. Suzanne Moineau, PhD., CCC/SLP
Professor | Department Chair

CSUSM Earns Top Score in Simucase

On May 10th CSUSM's SLP students took the top score in Simucase.

Simucase is a virtual platform in where participants asses, diagnose, and recommend treatment plans in realistic simulated scenarios. A vast number of universities and organizations utilize this innovative learning tool.

The students and faculty were recognized by Simucase on various social media platforms for their diligent work in accomplishing the week's top scores.

Your students were learning new skills to help them succeed as clinicians. Please let your students and faculty members know we recognize their hard work. Great job!

CSUSM Prepares for Summer Pediatric Clinic

The CSUSM Summer Clinic has client availabilities. Please see the attached flyers and feel free to disseminate the information and flyers to anyone who may benefit from this wonderful opportunity. Spots are limited and granted on a first come first serve basis.

Free CSUSM Pediatric Speech and Language Clinic

California State University San Marcos is offering free online assessment and therapy services for children from Pre-K through elementary school. Early identification and treatment of speech or language problems in children can improve their ability to understand and express themselves, leading to a successful preschool experience, socialization and more favorable academic outcomes in elementary school and beyond.

Graduate students in CSUSM's MS in Speech-Language Pathology program will provide the services under the supervision of a licensed SLP professional/faculty member.

GOOD TO KNOW

- For children who need assessment or treatment
- 30-60 minutes per session
- Sessions are online via Zoom for Healthcare
- Must be able to commit for the full five weeks
- No physician order or school referral necessary

LOGISTICS

Dates: July 12 - Aug. 13, 2021

Days: Monday - Friday mornings
(five days per week)

Location: Online via Zoom
for Healthcare

PARTICIPANTS NEED

- Device with camera and microphone
- Access to the internet

CSUSM DEPARTMENT OF SPEECH-LANGUAGE PATHOLOGY

Director of Clinical Education

Laura Coca, MA, CCC/SLP

Program Director

Suzanne Moineau, PhD, CCC/SLP

CSUSM Pediátrico Gratis en la Clínica del Habla y Lenguaje

La Universidad Estatal de California en San Marcos ofrece evaluación gratis en línea y servicios de terapia para niños desde Pre-K hasta la escuela primaria. La temprana identificación y el tratamiento de los problemas del habla o del lenguaje en los niños pueden mejorar su capacidad para comprender y expresarse, lo que lleva a una experiencia preescolar exitosa, socialización, estudios académicos y resultados más favorables en la escuela primaria y más allá.

Estudiantes de posgrado en la Maestría en Patología del Habla y el Lenguaje de CSUSM proporcionarán los servicios bajo la supervisión de un patólogo del habla y el lenguaje con licencia de un miembro profesional de la facultad.

INFORMACIÓN IMPORTANTE

- Servicios para niños que necesitan evaluación o tratamiento
- 30-60 minutos por sesión
- Las sesiones están en línea a través de Zoom Healthcare
- Debe poder comprometerse durante las cinco semanas completas
- No se necesita una orden médica ni una remisión de escuela
