THE PROGRAM IS CALIFORNIA COMMISSION ON TEACHER CREDENTIALING (CCTC) APPROVED.

Requirements are subject to state and federal changes in credential law.

Options for Meeting the Basic Skills Requirement

Individuals may satisfy the basic skill requirement by one of the following methods:

1. Pass the CBEST

Individuals only need to pass The California Basic Education Skills Tests (CBEST) once; CBEST passing scores remain valid indefinitely for all credential and employment purposes. To pass the CBEST, one must obtain a minimum scaled score of 41 in each of the three sections – reading, writing, and mathematics. However, a score as low as 37 on an individual section is acceptable if the total scaled score is at least 123. Any or all sections of the CBEST can be repeated as many times as necessary to obtain a passing score, but the full registration fee is charged for each test administration. For more information, see CTC – Exam website.

2. Pass the CSET: Multiple Subjects Plus Writing Skills Examination

The California Subject Examinations for Teaching (CSET): Multiple Subjects examination has been modified, adding an assessment of basic writing skills. Passage of the CSET: Writing Skills examination (test #142) can be added to passage of the CSET: Multiple Subjects Examination (subtests #101, 214 & 103) to meet the basic skills requirements. Passing exam scores used to meet the basic skills requirement remain valid indefinitely. For more information, see CTC – Exam website.

3. Pass the CSU Early Assessment Program or the CSU Placement Examinations

Passing scores on the California State University (CSU) Early Assessment Program (EAP) (English and Mathematics sections) or the CSU Placement Examinations (English Placement Test [EPT] and Entry Level Mathematics [ELM]) are sufficient to meet the basic skills requirement. See Coded Correspondence 09-03 for additional information. Passing exam scores remain valid indefinitely for the purpose of meeting the basic skills requirement. See appendix table 1 for passing scores.

4. Achieve Qualifying Score on the SAT or ACT

Previously, individuals have earned a score of 500 or higher on the Critical Reading (previously Verbal) section on the SAT exam combined with a score of 550 or higher on the SAT Mathematics exam are determined to have met the basic skills requirements.

A restructuring of the SAT Suite of Assessments has adjusted the qualifying scores on the revised Evidence – Based Reading and Writing and Mathematics examinations required to meet the basic skills requirements. The new scores listed have been deemed by the College Board as equivalence to the scores shown for the examinations as administered prior to this revision. See appendix table below.

An individual having earned a score of 22 or higher on the ACT English exam combined with a score of 23 or higher on the ACT Mathematics exam is determined to have met the basic skills requirement. See appendix table below.

EXAMINATION	MATH	ENGLISH
College Board SAT (taken before March 2016)	550	500 (Critical Reading or Verbal)
College Board SAT (taken after March 2016)	570	560 (Evidence-Based Reading and Writing)
(ACT)	23	22

College Board Advanced Placement (AP) Examinations

As noted in Coded Correspondence 15-03, students who achieve a score of 3 or higher on the College Board AP English exam and AP Calculus or AP statistics exam may also use exam scores to meet the basic skills requirement. See appendix table 5 for how the scores may be applied.

EXAMINATION	MATH	ENGLISH
College Board Advanced Placement Examinations	Score of 3 or above on one of the following: AP Calculus AB AP Calculus BC AP Statistics	Score of 3 or above on one of the following: AP English Language and Composition AP English Literature and Composition

5. Pass a Basic Skills Examination from Another State

The Commission will accept basic skills examinations from other states. A photocopy of the score report or letter from the testing agency verifying passage of the examinations must be submitted with the application packet. There is no recency requirement for the date the examination was passed.

6. Meet the Basic Skills Requirement by Coursework

Individuals may meet the requirement by providing official transcripts to a Commission-approved preparation program or submitted with their application packet to the Commission. The transcripts must show passage of courses in reading, writing, and mathematics as outlined below. Courses must have been taken at a regionally accredited college or university for credit, passing with a grade of B- or better, Pass, or Credit, be at least 3 semester units (or 4.5 quarter units), and be degree applicable. Degree applicable means that the course is non-remedial and could be applied towards the undergraduate requirements of a Bachelor's degree or for an Associate's degree, or is transferred to a four year institution. This can include community college coursework (whether used for transfer or not). Qualifying coursework does not include professional development or continuing education units or in-service training or workshop. Qualifying coursework includes the following:

- For reading proficiency: a course in critical thinking, literature, philosophy, reading, rhetoric, or textual analysis.
- For writing proficiency: a course in composition, English, rhetoric, writing communication, or writing.
- For mathematics proficiency: a course in algebra, geometry, mathematics, quantitative reasoning, or statistics.

A course that does not fall within the indicated areas may still qualify with additional letter of explanation. A letter from the registrar or relevant department chair of the college or university must state that a course passed by the applicant covered reading, writing, or mathematics at the same level as one of the listed courses. Such a letter could also attest that a single course sufficiently indicates proficiency in reading and writing combined.

7. Meet the Basic Skills Requirement by Coursework and Exam

The Basic Skills Requirement can be met through a combination of applicable courses and qualifying exams. This option is only available through a Commission-approved preparation program. This qualifying coursework must meet the requirement as describe above in item number 7. The mixing-and-matching of relevant component or components from all exam options permitted under current law is acceptable.
