Internship Opportunity: Sustainable Housing

Students who live in on-campus housing impact our sustainability efforts significantly. The student will work with housing to create programming that focuses on how to make dorm life more sustainable.

Responsibilities/Duties

- Design, implement, and monitor educational campaigns and programs.
- Create promotional materials to educate residents with our sustainability efforts.
- Establish and maintain a green room certification program

Qualifications

- Internship can be for credit or non-credit.
- Interest in waste reduction and recycling.
- Open to any major.
- 2-5 hours required per week
- Reports to sustainability manager / residential education
